HOW THE POLL WAS CONDUCTED

This poll was conducted by Mason-Dixon Polling & Strategy, Inc. of Jacksonville, Florida from October 17 through October 19, 2017. A total of 625 registered Florida voters were interviewed statewide by telephone. All said they regularly vote in state elections.

Those interviewed were randomly selected from a phone-matched Florida voter registration list that included both land-line and cell phone numbers. Quotas were assigned to reflect voter turnout by county.

The margin for error, according to standards customarily used by statisticians, is no more than ± 4 percentage points. This means that there is a 95 percent probability that the "true" figure would fall within that range if all voters were surveyed. The margin for error is higher for any subgroup, such as a gender or age grouping.

QUESTION: The State of Florida allows hunters on public land to use unleashed dogs to chase deer so that the deer may be shot by hunters. Do you think the state should or should not allow the use of dogs in deer hunting on land the public owns?
